To
Dr. S.S.C Chakra Rao
Chairman IRCF
Dear Sir,

AEME is honored to be part of IRCF. We are glad IRCF was formed to bring resuscitation training to all, to make every Indian citizen a lifesaver. It is a patriotic health gesture to India.

It is needed in India greatly for public and health care providers. IRCF is bringing many organizations to India, and bringing unified resuscitation guidelines to India to save Indian lives is noble. Glad to Know that IRCF is providing more affordable resuscitation courses across India. IRCF could be a role model in India and to all other low-resource countries.

AEME is happy to endorse IRCF and actively work in task forces and implement. We are involved with many activities of IRCF. IRCF is training millions of people in COLS in India with ILCOR, "world resuscitate a heart.

"We thank IRCF for forming task forces for BCLS, Basic cardiopulmonary life support CCLS Comprehensive cardiopulmonary life support Basic and advanced Neonatal resuscitation training program with IAP, NNF through IRCF Advanced pediatric life support (pediatric CCLS) with IAP, All these courses are essential for emergency medicine postgraduates and faculty we will continue to work with IRCF to bring high-quality resuscitation training across India.

With warm regards,

Ashima Sharma
